SAFETY DATA SHEET

BIRD Gas Island Wash Bucket Solution

Section 1. Identification

GHS product identifier Professional Supply BIRD Gas Island Wash Bucket Solution

Other means of identification

WP10

Solid. **Product type**

Relevant identified uses of the substance or mixture and uses advised against

Product use : Cleaner for windows, mirrors, and stainless steel surfaces.

Area of application : Industrial applications, Professional applications.

Product dilution information : 0.5 oz. (14.17g) per at least 1 gallon of water

Supplier/Manufacturer

: Professional Supply

PO Box 88

Sheboygan, WI 53082-0088 Phone: 800-236-8675

operation)

: CHEM-TEL: 800-255-3924

Section 2. Hazards identification

Product as SOLD

OSHA/HCS status : This material is considered hazardous by

the OSHA Hazard Communication Standard (29 CFR 1910.1200).

or mixture

Classification of the substance: ACUTE TOXICITY: ORAL - Category 4

SKIN IRRITATION - Category 2

SERIOUS EYE IRRITATION - Category 2A SPECIFIC TARGET ORGAN TOXICITY (SINGLE EXPOSURE) [Respiratory tract

irritation] - Category 3

Percentage of the mixture consisting of ingredient(s) of unknown toxicity: 36%

GHS Label elements

Hazard pictograms

Signal word Warning

Hazard statements : Harmful if swallowed.

Causes serious eve irritation.

Causes skin irritation.

May cause respiratory irritation.

Product AT USE DILUTION

Not classified.

Not classified.

None

None

The mixture does not meet the criteria for

classification.

Date of issue/Date of revision : 07/11/2014 Version : 1 1/15 : 01/16/2015 Date of previous issue

Section 2. Hazards identification

Precautionary statements

General

: Keep out of the reach of children.

Prevention

: Wear protective gloves. Wear eye protection. Use only outdoors or in a well ventilated area. Avoid breathing dust. Do not eat, drink or smoke when using this product. Wash hands thoroughly after handling.

Response

: IF INHALED: Remove victim to fresh air and keep comfortable for breathing. Call a POISON CENTER or physician if you feel

IF SWALLOWED: Call a POISON CENTER or physician if you feel unwell. Rinse

mouth.

IF ON SKIN: Wash with plenty of soap and water. Take off contaminated clothing. Wash contaminated clothing before reuse. If skin irritation occurs: Get medical

attention.

IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing. If

eye irritation persists: Get medical

attention.

Storage

Store locked up.

Disposal

Dispose of waste and residues in accordance with local authority

requirements.

Hazards not otherwise classified

: None known.

Keep out of the reach of children.

Observe good industrial hygiene practices.

No storage precautions necessary.

Dispose of solution down the drain to

municipal sewer.

None known.

Section 3. Composition/information on ingredients

Substance/mixture

: Mixture

Other means of identification

: WP10, ST-798, ST-799, ST-904

CAS number/other identifiers

CAS number : Not applicable.

Product code : Not available.

| Ingredient name | Other names | % | CAS number |
|--------------------------------|-------------------------|--------|------------|
| sodium dodecylbenzenesulfonate | sodium | 40-50% | 25155-30-0 |
| | dodecylbenzenesulfonate | | |
| citric acid | citric acid | 10-20% | 77-92-9 |
| sodium carbonate | sodium carbonate | 5-10% | 497-19-8 |
| sodium hydrogencarbonate | sodium bicarbonate | 5-10% | 144-55-8 |
| disodium metasilicate | disodium metasilicate | <2% | 6834-92-0 |

Any concentration shown as a range is to protect confidentiality or is due to batch variation.

There are no additional ingredients present which, within the current knowledge of the supplier and in the concentrations applicable, are classified as hazardous to health and hence require reporting in this section.

Date of issue/Date of revision : 01/16/2015 Date of previous issue : 07/11/2014 Version : 1 2/15

Section 4. First aid measures

Description of necessary first aid measures

Product as SOLD

Eye contact

: Immediately flush eyes with plenty of water, occasionally lifting the upper and lower eyelids. Check for and remove any contact lenses. Continue to rinse for at least 10 minutes. Get medical attention.

Product AT USE DILUTION

No known effect after eye contact. Rinse with water for a few minutes. If irritation persists, get medical attention.

Inhalation

in a position comfortable for breathing. If it is suspected that fumes are still present, the rescuer should wear an appropriate mask or self-contained breathing apparatus. If not breathing, if breathing is irregular or if respiratory arrest occurs, provide artificial respiration or oxygen by trained personnel. It may be dangerous to the person providing aid to give mouth-tomouth resuscitation. Get medical attention. If necessary, call a poison center or physician. If unconscious, place in recovery position and get medical attention immediately. Maintain an open airway. Loosen tight clothing such as a collar, tie, belt or waistband.

: Remove victim to fresh air and keep at rest in a position comfortable for breathing. If it symptomatically.

Skin contact

: Flush contaminated skin with plenty of water. Remove contaminated clothing and shoes. Continue to rinse for at least 10 minutes. Get medical attention. Wash clothing before reuse. Clean shoes thoroughly before reuse.

No known effect after skin contact.

Ingestion

: Wash out mouth with water. Remove dentures if any. Remove victim to fresh air and keep at rest in a position comfortable for breathing. If material has been swallowed and the exposed person is conscious, give small quantities of water to drink. Stop if the exposed person feels sick as vomiting may be dangerous. Do not induce vomiting unless directed to do so by medical personnel. If vomiting occurs, the head should be kept low so that vomit does not enter the lungs. Get medical attention. If necessary, call a poison center or physician. Never give anything by mouth to an unconscious person. If unconscious, place in recovery position and get medical attention immediately. Maintain an open airway. Loosen tight clothing such as a collar, tie, belt or waistband.

Get medical attention if symptoms occur.

Version : 1 3/15

Most important symptoms/effects, acute and delayed

Potential acute health effects

Eve contact

Inhalation

Ingestion

Skin contact

: Causes serious eye irritation.: May cause respiratory irritation.

: Causes skin irritation.

: Harmful if swallowed. Irritating to mouth, throat and stomach.

Date of issue/Date of revision : 01/16/2015 Date of previous issue : 07/11/2014

Eye contact

Section 4. First aid measures

Over-exposure signs/symptoms

Product as SOLD

Adverse symptoms may include the

following: pain or irritation watering

redness

Inhalation : Adverse symptoms may include the

following:

respiratory tract irritation

coughing

: Adverse symptoms may include the Skin contact

> following: irritation redness

Ingestion : No specific data. Product AT USE DILUTION

No known adverse symptoms.

Indication of immediate medical attention and special treatment needed, if necessary

Notes to physician

: Treat symptomatically. Contact poison treatment specialist immediately if large quantities have been ingested or inhaled.

Specific treatments

: No specific treatment.

Protection of first-aiders

: No action shall be taken involving any personal risk or without suitable training. If it is suspected that fumes are still present, the rescuer should wear an appropriate mask or self-contained breathing apparatus. It may be dangerous to the person providing aid to give mouth-tomouth resuscitation.

Treat symptomatically. No special measures required.

See toxicological information (Section 11)

Section 5. Fire-fighting measures

Suitable extinguishing media

: Use an extinguishing agent suitable for the surrounding fire.

Unsuitable extinguishing

media

Specific hazards arising from the chemical

Hazardous thermal decomposition products : Fire water contaminated with this material must be contained and prevented from being

discharged to any waterway, sewer or drain.

: Decomposition products may include the following materials: carbon dioxide

carbon monoxide sulfur oxides metal oxide/oxides

: Do not use water jet.

Special protective actions for:

fire-fighters

Promptly isolate the scene by removing all persons from the vicinity of the incident if there is a fire. No action shall be taken involving any personal risk or without suitable

training.

Special protective equipment and precautions for firefighters Fire-fighters should wear appropriate protective equipment and self-contained breathing apparatus (SCBA) with a full face-piece operated in positive pressure mode.

Date of issue/Date of revision : 01/16/2015 Date of previous issue : 07/11/2014 Version : 1 4/15

Section 6. Accidental release measures

Personal precautions, protective equipment and emergency procedures

For non-emergency personnel

Product as SOLD

: No action shall be taken involving any personal risk or without suitable training. Evacuate surrounding areas. Keep unnecessary and unprotected personnel from entering. Do not touch or walk through spilled material. Provide adequate ventilation.

Wear appropriate respirator when ventilation is inadequate. Put on appropriate personal protective equipment.

For emergency responders :

If specialized clothing is required to deal with the spillage, take note of any information in Section 8 on suitable and unsuitable materials. See also the information in "For nonemergency personnel".

Environmental precautions

: Avoid dispersal of spilled material and runoff and contact with soil, waterways, drains and sewers. Inform the relevant authorities if the product has caused environmental pollution (sewers, waterways, soil or air). Water polluting material. May be harmful to the environment if released in large quantities.

Product AT USE DILUTION

Use personal protective equipment as required.

Avoid contact of large amounts of spilled material and run off with soil and surface waterways.

Use a water rinse for final clean-up.

Discharge collected material per Section 13 of the SDS.

Avoid discharge into storm water drains, water courses, or onto the ground.

Methods and materials for containment and cleaning up

Small spill

Product as SOLD

: Move containers from spill area. Avoid dust generation. Using a vacuum with HEPA filter will reduce dust dispersal. Place spilled material in a designated, labeled waste container. Dispose of via a licensed waste disposal contractor.

Large spill

: Move containers from spill area. Approach release from upwind. Prevent entry into sewers, water courses, basements or confined areas. Avoid dust generation. Do not dry sweep. Vacuum dust with equipment fitted with a HEPA filter and place in a closed, labeled waste container. Dispose of via a licensed waste disposal contractor. Note: see Section 1 for emergency contact information and Section 13 for waste disposal.

Product AT USE DILUTION

Small Spills: Wipe up with absorbent material.

Large Spills: Flush area with water. Prevent entry into waterways.

Discharge collected material per Section 13 of the SDS.

Date of issue/Date of revision :01/16/2015 Date of previous issue :07/11/2014 Version :1 5/15

Section 7. Handling and storage

Precautions for safe handling

Protective measures

Product as SOLD

equipment (see Section 8). Do not ingest. Avoid contact with eyes, skin and clothing. Avoid release to the environment. Use only with adequate ventilation. Wear appropriate respirator when ventilation is inadequate. Keep in the original container or an approved alternative made from a compatible material, kept tightly closed when not in use. Empty containers retain product residue and can be hazardous. Do not reuse container. Do not mix with other chemicals or cleaning agents.

Advice on general occupational hygiene

: Eating, drinking and smoking should be prohibited in areas where this material is handled, stored and processed. Workers should wash hands and face before eating, drinking and smoking. Remove contaminated clothing and protective equipment before entering eating areas. See also Section 8 for additional information on hygiene measures.

Conditions for safe storage, : including any incompatibilities

Store in accordance with local regulations. Store in original container protected from direct sunlight in a dry, cool and well-ventilated area, away from incompatible materials (see Section 10) and food and drink. Store locked up. Keep container tightly closed and sealed until ready for use. Containers that have been opened must be carefully resealed and kept upright to prevent leakage. Do not store in unlabeled containers.

Use appropriate containment to avoid environmental contamination. Keep from freezing.

Product AT USE DILUTION

Wash hands thoroughly after handling.

Keep out of reach of children.

Not applicable.

Section 8. Exposure controls/personal protection

Control parameters

Product as SOLD

Occupational exposure limits: No exposure limits noted for ingredient(s).

Appropriate engineering controls

: Use only with adequate ventilation. If user operations generate dust, fumes, gas, vapor or mist, use process enclosures, local exhaust ventilation or other engineering controls to keep worker exposure to airborne contaminants below any recommended or statutory limits.

Product AT USE DILUTION

No exposure limits noted for ingredient(s).

No ventilation required.

 Date of issue/Date of revision
 : 01/16/2015
 Date of previous issue
 : 07/11/2014
 Version
 : 1 6/15

Section 8. Exposure controls/personal protection

Environmental exposure controls

Product as SOLD

Emissions from ventilation or work process equipment should be checked to ensure they comply with the requirements of environmental protection legislation. In some cases, fume scrubbers, filters or engineering modifications to the process equipment will be necessary to reduce emissions to acceptable levels.

Product AT USE DILUTION

None.

Individual protection measures, such as personal protective equipment

Product as SOLD

Hygiene measures

: Wash hands, forearms and face thoroughly None required. after handling chemical products, before eating, smoking and using the lavatory and at the end of the working period. Appropriate techniques should be used to remove potentially contaminated clothing. Wash contaminated clothing before reusing. Ensure that eyewash stations and safety showers are close to the workstation location.

Eye/face protection

Safety eyewear complying with an approved standard should be used when a risk assessment indicates this is necessary to avoid exposure to liquid splashes, mists, gases or dusts. If contact is possible, the following protection should be worn, unless the assessment indicates a higher degree of protection: safety glasses with side shields.

Product AT USE DILUTION

No protective equipment is needed under normal conditions.

Skin protection

Hand protection

: Chemical-resistant, impervious gloves complying with an approved standard should be worn at all times when handling chemical products if a risk assessment indicates this is necessary. Considering the parameters specified by the glove manufacturer, check during use that the gloves are still retaining their protective properties. It should be noted that the time to breakthrough for any glove material may be different for different glove manufacturers. In the case of mixtures, consisting of several substances, the protection time of the gloves cannot be accurately estimated. Recommended: Neoprene gloves. Rubber gloves.

Body protection

Personal protective equipment for the body should be selected based on the task being performed and the risks involved and should be approved by a specialist before handling this product.

No protective equipment is needed under normal conditions.

Date of issue/Date of revision : 01/16/2015 : 07/11/2014 Date of previous issue Version : 1 7/15

Section 8. Exposure controls/personal protection

Other skin protection

Product as SOLD

Product AT USE DILUTION

Appropriate footwear and any additional skin protection measures should be selected based on the task being performed and the risks involved and should be approved by a specialist before

handling this product.

Respiratory protection : Use a properly fitted, particulate filter respirator complying with an approved

based on known or anticipated exposure levels, the hazards of the product and the safe working limits of the selected

standard if a risk assessment indicates this is necessary. Respirator selection must be

respirator.

No protective equipment is needed under normal conditions.

No protective equipment is needed under normal conditions.

or minimized wherever possible. Disposal of this product, solutions and any byproducts should at all times comply with the requirements of environmental protection and waste disposal legislation and any regional local authority requirements. Dispose of surplus and non-recyclable products via a licensed waste disposal contractor. Waste should not be disposed of untreated to the sewer unless fully compliant with the requirements of all authorities with jurisdiction. Waste packaging should be recycled. Incineration or landfill should only be considered when recycling is not feasible. This material and its container must be disposed of in a safe way. Care should be taken when handling emptied containers that have not been cleaned or rinsed out. Empty containers or liners may retain some product residues. Avoid dispersal of spilled material and runoff and contact with soil, waterways, drains and sewers.

Product AT USE DILUTION

: The generation of waste should be avoided or minimized wherever possible. Disposal of this product, solutions and any by-

Copyright ©2001, National Fire Protection Association, Quincy, MA 02269. This warning system is intended to be interpreted and applied only by properly trained individuals to identify fire, health and reactivity hazards of chemicals. The user is referred to certain limited number of chemicals with recommended classifications in

NFPA 49 and NFPA 325, which would be used as a guideline only. Whether the chemicals are classified by NFPA or not, anyone using the 704 systems to classify chemicals does so at their own risk.
