## 4 First-aid measures

4.1 Description of first aid measures		
Product as SOLD	Product at USE DILUTION	
After inhalation:     Supply fresh air; consult doctor in case of complaints.	No special measures required. Treat symptomatically.	
<ul> <li>After skin contact: Wash with water and rinse thoroughly. If skin irritation continues consult a doctor.</li> </ul>	No known effect after skin contact. Rinse with water for a few minutes.	
<ul> <li>After eye contact: Remove contact lenses if worn. Rinse opened eye for several minutes under running water. If symptoms persist consult a doctor.</li> </ul>	No known effect after eye contact. Rinse with water for a few minutes. If irritation persists, get medical attention.	
<ul> <li>After swallowing: Rinse out mouth and then drink plenty of water.</li> <li>Do not induce vomiting; call for medical help immediately.</li> </ul>	Get medical attention if symptoms occur.	
• 4.2 Most important symptoms and effects both acute and delayed Gastric or intestinal disorders.		
Hazards No further relevant information available.	No known effects.	
• 4.3 Indication of any immediate medical attention and special treatment needed		
If necessary oxygen respiration treatment. Medical supervision for at least 48 hours.	Treat symptomatically.	

Trade name: Attack Extra Strength

(Contd. from page 3)

## **5** Fire-fighting measures

- 5.1 Extinguishing media
- Suitable extinguishing agents:
- CO2, powder or water spray. Fight larger fires with water spray or alcohol resistant foam.
- For safety reasons unsuitable extinguishing agents: None.
- 5.2 Special hazards arising from the substance or mixture
- Formation of toxic gases is possible during heating or in case of fire.
- 5.3 Advice for firefighters
- Protective equipment: Wear self-contained respiratory protective device.
  - Wear fully protective suit.
- Additional information No further relevant information available.

### 6 Accidental release measures

6.1 Personal precautions, protective equipment and emergency procedures		
Product as SOLD	Product at USE DILUTION	
Wear protective equipment. Keep unprotected persons away. Use respiratory protective device against the effects of fumes/dust/aerosol. Ensure adequate ventilation	Use personal protective equipment as required.	
6.2 Environmental precautions:		
Do not allow to enter sewers/ surface or ground water.	Avoid contact of large amounts of spilled material and run off with soil and surface waterways.	
• 6.3 Methods and material for containment and cleaning up:		
Absorb with liquid-binding material (sand, diatomite, acid binders, universal binders, sawdust). Send for recovery or disposal in suitable receptacles. Ensure adequate ventilation.	Large Spills: Flush area with water. Prevent entry into waterways. Small Spills: Wipe up with absorbent material.	
6.4 Reference to other sections		
See Section 7 for information on safe handling. See Section 8 for information on personal protection equipment. See Section 13 for disposal information.	See Section 7 for information on safe handling. See Section 8 for information on personal protection equipment. See Section 13 for disposal information.	

7 Handling and storage		
• 7.1 Precautions for safe handling		
Product as SOLD	Product at USE DILUTION	
Ensure good ventilation/exhaustion at the workplace. Prevent formation of aerosols.	Wash hands thoroughly after handling.	
<ul> <li>Information about fire - and explosion protection:</li> </ul>	·	
Protect from heat.	No precautions necessary.	

Trade name: Attack Extra Strength

• 8.2 Exposure controls			
Personal protective equipment:			
General protective and hygienic measures:			
The usual precautionary measures are to be adhered to when handling chemicals. Keep away from foodstuffs, beverages and feed. Immediately remove all soiled and contaminated clothing. Wash hands before breaks and at the end of work. Avoid contact with the eyes and skin.	The usual precautionary measures are to be adhered to when handling chemicals. Keep away from foodstuffs, beverages and feed. Immediately remove all soiled and contaminated clothing. Wash hands before breaks and at the end of work. Avoid contact with the eyes and skin.		
Respiratory protection:			
Not required under normal conditions of use. Use suitable respiratory protective device in case of insufficient ventilation. NIOSH approved organic vapor respirator equipped with a dust/mist prefilter should be used.	Not required under normal conditions of use. Use suitable respiratory protective device in case of insufficient ventilation. NIOSH approved organic vapor respirator equipped with a dust/mist prefilter should be used.		

Trade name: Attack Extra Strength

Protection of hands:	(Contd. fro
Product as SOLD	Product at USE DILUTION
Protective gloves	No protective equipment is needed under normal conditions.
The glove material has to be impermeable and resistant to the product/ the substance/ the preparation. Due to missing tests no recommendation to the glove material can be given for the product/ the preparation/ the chemical mixture. Selection of the glove material on consideration of the penetration times, rates of diffusion and the degradation.	
Material of gloves	
The selection of the suitable gloves does not only depend on the material, but also on further marks of quality and varies from manufacturer to manufacturer. As the product is a preparation of several substances, the resistance of the glove material can not be calculated in advance and has therefore to be checked prior to the application.	No protective equipment is needed under normal conditions.
Penetration time of glove material	
The exact break through time has to be found out by the manufacturer of the protective gloves and has to be observed.	No protective equipment is needed under normal conditions.
• For the permanent contact gloves made of the following ma	aterials are suitable: Rubber gloves
• Eye protection:	
Safety glasses	No protective equipment is needed under normal conditions.
Body protection:	
Not required under normal conditions of use. Protection may be required for spills.	No protective equipment is needed under normal conditions.
Limitation and supervision of exposure into the environme	nt
No further relevant information available.	No further relevant information available.
Risk management measures	
See Section 7 for additional information. No further relevant information available.	See Section 7 for additional information. No further relevant information available.

9 Physical and chemical properties

## 10 Stability and reactivity

#### **Product as SOLD**

- 10.1 Reactivity Not determined.
- 10.2 Chemical stability
- Thermal decomposition / conditions to be avoided: No decomposition if used and stored according to specifications.
- 10.3 Possibility of hazardous reactions Reacts with strong oxidizing agents. Toxic fumes may be released if heated above the decomposition point.
- 10.4 Conditions to avoid No further relevant information available.
- 10.5 Incompatible materials: Strong oxidizing agents.
- **10.6 Hazardous decomposition products:** Possible in traces. Carbon monoxide and carbon dioxide Nitrogen oxides (NOx) Sulphur oxides (SOx)

Trade name: Attack Extra Strength

(Contd. from page 7)

# 11 Toxicological information • 11.1 Information on toxicological effects Product as SOLD Product as SOLD Product at USE DILUTION • Acute toxicity: >5,000 mg/kg Non-toxic at use-dilution. • Primary irritant effect: No adverse effects due to skin contact are expected. • on the skin: Irritant to skin and mucous membranes. No adverse effects due to skin contact are expected. • on the eye: Irritating effect. Direct contact with eyes may cause temporary irritation. • Additional toxicological information: The product shows the following dangers according to the calculation method of the General EU

Classification Guidelines for Preparations as issued in the latest version:

Irritant

At long or repeated contact with skin it may cause dermatitis due to the degreasing effect of the solvent.

## Not classified No known significant effects or critical hazards.

# **12 Ecological information**

Product as SOLD

- 12.1 Toxicity
- Aquatic toxicity: No further relevant information available.
- 12.2 Persistence and degradability No further relevant information available.
- 12.3 Bioaccumulative potential No further relevant information available.
- 12.4 Mobility in soil No further relevant information available.
- Additional ecological information:
- General notes:

This statement was deduced from the properties of the single components.

Due to available data on eliminability/decomposition and bioaccumulation potential a prolonged damage of the environment is unlikely.

Water hazard class 1 (German Regulation) (Self-assessment): slightly hazardous for water

Do not allow undiluted product or large quantities of it to reach ground water, water course or sewage system.

- 12.5 Results of PBT and vPvB assessment
- PBT: Not applicable.
- vPvB: Not applicable.
- 12.6 Other adverse effects No further relevant information available.
- PBT: Not applicable.
- vPvB: Not applicable.

# **13 Disposal considerations**

13.1 Waste treatment methods		
Product as SOLD	Product at USE DILUTION	
Recommendation		
Smaller quantities can be disposed of with household waste. Can be burned with household garbage after consulting with the waste disposal facility operator and the pertinent authorities and adhering to the necessary technical regulations.	Diluted product can be flushed to sanitary sewer. Discard empty container in trash.	

(Contd. on page 9)

	(Contd. from page	
Uncleaned packaging:		
Product as SOLD	Product at USE DILUTION	
• Recommendation: Disposal must be made according to official regulations.	Diluted product can be flushed to sanitary sewer. Discard empty container in trash.	
Recommended cleansing agents: Water, if necessary together with cleansing agents.		
14 Transport information
